

Towards the anniversary!

1973 **50** years 2023

2023 is anniversary year for Kyrgyz aviation institute named after. I. Abdraimov. The Higher Aviation Educational Institution of the Kyrgyz Republic is celebrating the 50th anniversary of its establishment.

50 years is a considerable date when step by step our Institute has created its educational and methodological center for Civil Aviation of Kyrgyzstan. It also has founded a scientific activity which is increasing and strengthening the material and technical base, which in its turn has expanded the diversity of specialties.

The solid foundations of theoretical fundamental knowledge, obtained within the Institute, allowed the graduates to build a successful career and achieve their goals in the field of Civil Aviation. Today, our graduates work not only in Kyrgyzstan, but in almost all continents and in many countries of the world, holding leading positions and contributing to the development of global Civil Aviation.

And this is the great contribution of the staff of our Institute, including veterans who have devoted their entire conscious lives to the scientific and pedagogical activities, lecturers, teachers, employees, students, graduates, who made the history of the Institute as patriots of their country and professionals in their field.

Dear friends, we are very pleased and grateful to be part of this anniversary! We will be participants in all jubilee educational, scientific, methodological and solemn events.

The hole information and Program of events will be published on our official website and in social networks.

Dear friends, I hope that this jubilee year will be bright with its significant events and deeds that allow us to look confidently to the future.

**With my best regards,
on behalf of the personnel,**

**Director, Candidate of technical sciences,
Associate professor**

Ulan Kurmanov
